### June 11 Vote Eyed for New School Here

Grayling may be one step closer to voting on the construction of a second elementary school.

The Crawford/AuSable Board of Education agreed at their January 15th meeting to proceed with the District Infrastructure Committee's timeline towards a possible June 11th bond election.

The school board also appointed a committee to interview for an architect.

Reynolds said that if a bond proposal is put before voters on June 11th and is approved, he believes the new school could be ready to open by the fall of 1991.

According to the timeline presented to the board last Monday, the infrastructure committee will be receiving a "ballpark budget" for its recommendations at its January 24th meeting. A finalized budget is scheduled for school board approval at its March 19th meeting.

The following is a list of the infrastructure committee's recommendations submitted to the board on Monday:

Hire a construction management firm.  
Hire architectural/engineering firm by 2-19-90.

Construct a new elementary school for grades K-2 at Grayling Elementary/football field site attached by a central kitchen and separate cafeterias.

Modify the Grayling Elementary for grades 3-5, add office space and improve entries.

Configure the Frederic Elementary for grades K-4, wall open classrooms, modify space for personnel, and re-roof the old section.

Place all 5th grades at the Grayling Elementary School.

Improve elementary playgrounds, parking and traffic flow.

Build for class sizes of 25 with rooms designed for 30.

Equip a computer lab at each elementary.

Construct two pre-school classrooms in the K-2 building.

Construct a football field/track complex at the high school site.

Cap and expand high school parking lot and pave bus corral.

Engage Project Outreach to conduct a community survey.

## 10 Arrested in County on Drug Charges

An eleven month investigation by local and state police agencies culminated last Thursday, January 11, with the arrests of 10 Crawford County residents on drug related charges.

Seven suspects were arraigned on Friday, January 12, in 83rd District Court before the Honorable Francis L. Walsh.

David Owen Myers, 17, of Grayling, was arraigned on two counts of delivery of marijuana. Bond was set at \$2,500 on each charge with 10 percent surety.

Randy Duane Bindschattel, 25, of Frederic was arraigned on one count of delivery of marijuana. Bond was set for \$2,500, 10 percent surety.

John Glen Bindschattel, 27, of Grayling, was arraigned on one count of delivery of marijuana. Bond was set for \$10,000, 10 percent surety. Bin-

dschattel was also charged with violation of his probation.

Joseph Alan Anteau, 17, of Grayling, was arraigned on one count of delivery of marijuana. Bond was set for \$2,500, 10 percent surety.

Justin Mathew McClain, 21, of Grayling, was arraigned on one count of delivery of marijuana. Bond was set for \$10,000, 10 percent surety. McClain was also charged with violation of his probation.

Royal Leon Haight, 23, of Grayling, was arraigned on one count of delivery of marijuana. Bond was set for \$10,000, 10 percent surety.

Anthony David LaChance, 26, of Grayling, was arraigned on two counts of delivery of marijuana. Bond was set \$2,500 on each charge with 10 percent surety.

All seven requested preliminary examinations which have been scheduled in District Court for Friday, January 19.

Annmarie Lyn Pratt, 19, and Timothy John Lobsinger, 31, both of Grayling were arraigned in District Court on Tuesday, January 16. They were each charged with one count of delivery of marijuana. Bond was set at \$2,500 each with 10 percent surety.

Attorneys for Pratt and Lobsinger waived the 12-day preliminary examination period.

The name of the tenth suspect is being withheld pending his arraignment next week.

Two warrants are still outstanding.

Prosecuting Attorney John Huss issued 14 felony warrants based on information gathered by the Crawford County Sheriff Department and the Michigan State Police during an investigation that began in March of 1989.

The arrests took place early Thursday, January 11, when officers from the Sheriff's department, State Police from Houghton Lake and Gaylord and the Grayling City Police Department began rounding up the suspects from eight different residences in the county. The arrests were made simultaneously to insure that information about the sweep did not leak before the actual arrests could be made.

Lt. Jimmy Parker, a detective with the Sheriff Department, explained that the investigation began when his department received several tips about the drugs last spring.

"We got several tips and followed them up through undercover police activity which involved several drug buys," he said. "As the investigation proceeded the county requested assistance, manpower and financial, from the State Police Narcotic Unit."

After that Parker said the two police agencies worked together to complete the investigation and make the arrests.

Parker said Thursday's sweep was the first multiple drug bust in the county since 1986. He anticipates that additional arrest warrants will be issued as the investigation continues.

In addition to marijuana, Parker said a small amount of cocaine was recovered during the search of one of the residences.

## Winter Carnival Medallion Hunt Features \$1000 in Cash or Prizes

The 7th Annual Grayling Winter Sports Carnival Medallion Hunt is offering \$1000 in prizes -- the most ever in its 7 years.

The Grayling Chamber of Commerce is sponsoring the \$500 cash prize for finding the large medallion. In addition, 16 small medallions (15 worth \$30 in gift certificates and one worth a \$50 gift certificate) will also be hidden in Crawford County.

Clues to finding the medallions will be broadcast each day for 12 days starting Monday, Jan. 22, and ending Friday, Feb. 2. Radio station WUPS will broadcast the clues at 7 a.m. and again at 7 p.m. Radio stations WQON-FM and WGRY-AM will broadcast the clues at 7 p.m. A list of up-to-date clues will be available 8:30 a.m. to 5 p.m. Mon.-Fri. at the Avalanche.

The medallions are hidden on public property in Crawford County. No private property has to be crossed to reach a medallion.

The large medallion worth \$500 has a number etched on its back. The small medallions have

the name of a local business donating a gift certificate. Businesses donating \$30 gift certificates are Adams Photography, Cald's Country Store, Chief Shoppenagons, Clair's Standard Station, Davis Jewelry, Delights Chicken & Fish, Flowers By Josie, Hanson Hills, McLean's Hardware, Milltown Feed & Lawn, Moore's Automotive, North End Grocery, Rainbow Fitness Center, 7-Eleven, and Weaver's Gifts. The Grayling Holiday Inn donated a gift certificate worth \$50.

Small medallions may be turned in at the Avalanche office 8:30 a.m. - 5 p.m., Mon.-Fri. Anyone finding the big medallion should call Mike Shearer, 348-2083. The \$500 cash prize will be awarded during the Winter Carnival weekend Feb. 3-4 at Hanson Hills.

The big medallion can be found any day. In the past medallion hunts, bits of each clue broadcast needed to be put together to lead to the big medallion. You don't have to hunt for the big medallion everyday.

## Hospital Receives National Accreditation

Mercy Hospital/Grayling has achieved accreditation from the Joint Commission on Accreditation of Healthcare Organizations, Chicago, as a result of its demonstrated compliance with the Joint Commission's nationally recognized healthcare standards. The Joint Commission on-site survey of Mercy Hospital occurred in September.

"Above all, the national standards mandate that attention to quality be top-level activity that permeates the entire organization," said John E. Milton, director of the Joint Commission's Hospital Accreditation Program. "As an example, the quality assurance standards expect health professionals to use indicators of quality to monitor and evaluate all areas of clinical care."

Milton said the Grayling community "should be proud that Mercy Hospital is focusing on the most challenging goal: to continually raise quality to higher levels." He also congratulated Mercy's sister hospital, Mercy Hospital/Cadillac, for their accreditation.

Dennis Renander, President and Chief Executive Officer at Mercy Hospital, spoke of

his pride in the hospital's employees and medical staff.

"The accreditation is proof, of our organization-wide commitment to provide quality care to our patients," Renander said. "In addition, our staff appreciated the educational aspect of the survey and the opportunity to interact with the team of surveyors."

The Joint Commission accredits more than 5,400 hospitals and evaluates and accredits more than 3,200 other healthcare programs.

Mercy Hospital/Grayling voluntarily sought Joint Commission accreditation because it provides a staff educational tool, positively affects medical staff recruitment, and enhances community confidence.

"The Grayling community can be pleased that Mercy Hospital is accredited by the Joint Commission," commented Renander. "In an intensive on-site survey we've been put under the magnifying glass and have been judged to measure up to the highest standards of care. When it comes to commitment to quality our Joint Commission accreditation is action behind words."

## KCC Asks Voters For Extra Millage

Kirtland Community College will be asking Crawford County voters to approve a 1.5 mill increase for operational purposes at a special election on Tuesday, January 23.

The new millage request will be for an indefinite time period instead of the five year limitation requested last October. College president Raymond Homer explained that the indefinite request will eliminate the need to continually ask for millage renewals. It will also save the college the money it has to spend to finance its special elections.

Kirtland's 1.5 mills request passed in Crawford County on October 9th, 424 yes to 384 no, but was defeated in 14 of the district's 18 precincts, losing by 685 votes.

Crawford County voters in precinct 1 will cast their ballots at the Grayling Middle School, precinct 2 at the Frederic Elementary School and precinct 3 at the Lovells Township Hall. The polls will be open from 7 a.m. to 8 p.m.

## State Asks For Rehearing With AMAC Case

The State of Michigan wants a rehearing by the Michigan Court of Appeals concerning their ruling on an AMAC lawsuit.

On Jan. 30 the state will ask the Court of Appeals to review their decision in the AMAC lawsuit against the state and its Department of Military Affairs.

In its Dec. 27, 1987, ruling, the Court of Appeals said the circuit court has jurisdiction to hear the AMAC suit. The Court of Appeals also ruled that sovereign immunity from being sued does not bar contract claims against the state.

In asking for the rehearing, George H. Weller, Assistant Attorney General, listed 3 reasons.

1) The Court of Appeals' opinion is in conflict with three other opinions of panels of the Court yet no mention was made of the other opinions.

2) A thorough source on the question of sovereign immunity in Michigan became available in December but was not available to the Court of Appeals when the case was pending.

3) The Court of Appeals made a mistake of law by overlooking a controlling principle of law from the Michigan constitution.

The AMAC suit was filed in 46th Circuit Court Nov. 9, 1987, to prevent use of donated land at Camp Grayling by military units other than Michigan National Guard.

## Let's Talk About It

By Joe Murphy

Part of my winter entertainment is watching the birds come into the feeders. We are fortunate to have a good variety of birds to watch. Each is a little different and you get to know a little about them. A good bird book comes in handy to identify the different species. Mourning doves seem to spend most of their day at the feeder. We have them around from morning till night and they seem to get thicker day by day. I can't remember ever seeing or hearing them when I was a kid. Now it seems every where you go you find a lot of them around.

I think their cooing is one of the most tiresome sounds in the woods. When we lived up on the farm I got mighty tired of the sound of them. It seemed to go on from morning to night, day after day. I still think they are a very pretty bird, they always seem so sleek and clean. We even have to put up with a few pigeons but they just seem to clean up the feed on the ground. There isn't much to do in the winter and the birds help pass the time. The one bird I am anxious to see is a robin. I'm tired of this snow and cold crap.

Wild turkeys are becoming the most commonly seen thing in the woods today. It seems that no matter where you go you always see plenty of turkeys. I hope they

someday have a fall season on them. I can't drag a deer out of the woods anymore, but I might be able to handle a turkey. I've heard that the taste difference between the wild and tame turkey is as great as between the wild and tame strawberries. If that's so, I sure would like to try one.

Speaking of wild strawberries, I remember when I was a kid all the nice big wild strawberries we picked. Three years or so after the county put in the new road past our old farm the shoulders of the road were just covered with wild strawberries. It was no job at all to pick three or four quarts a day so we could have those big bowls of strawberries covered with fresh cream with every meal.

My brother Orville and I used to stay up at the farm and batch it back then. We knew what we liked and when it was in season we pigged out on it. We both loved sweet corn and we'd boil up a dozen ears apiece for a meal, covered with nice fresh butter from Mom's churn, the thought of them still makes my mouth water.

Another favorite of ours was creamed potatoes and peas. When the peas were ready the new potatoes would be about the size of golf balls, creamed together they were a real treat. We didn't have any money but we sure ate good in those days.

### Kirtland Vote Makes Difference For Our Youth

We have an opportunity, come January 23, 1990, to vote IN FAVOR OF Kirtland Community College 1.5 mill tax proposal.

The voters of the four-county Kirtland Community College district have an opportunity to provide wisdom and vision to benefit our youth by a yes vote. Remember we established the college in 1966, some 23 years ago. We also said by doing this we would make advanced education, together with specialized vocational skills available to our four county citizens and

youth, thus providing a benefit for all of us in our society. We also provided for the College 23 years ago one(1) Mill operation tax vote. Kirtland Community College is the only Community College in the State still operating at the original 1 mill tax levy rate.

Think for just a moment, 23 years operation at the same 1 mill rate, and still the College has done an outstanding job for our Community.

I am a retired Probate and Juvenile Court Judge from Roscommon County. I devoted 23 plus years of my life, and to the best of my ability helping people with problems. As a Judge you had to care about people, you had to be concerned and with empathy and understanding. Most of all "the Child's best interest" had to be our utmost priority. I can tell you that I have seen our youth change with opportunities provided by our College, in restoring confidence either in education or

vocational skills. Kirtland Community College has given our youth an avenue of employable skills.

As a long time Judge, I have always been appalled that we as voters only have the opportunity to vote on millage that affects our children's future.

We can not vote on National Taxation issues, or State Tax issues. We can not vote on the cost to run a prison, or legislators salaries, or Wayne County Tax Subsidy, or social programs, etc. ONLY on kids and their education opportunities for the future.

Kirtland College has devoted and committed Teachers, Leadership, Staff and a Board of Trustees that truly care.

Our four county Community College District needs your understanding, your compassion and your support. You have an opportunity to make a difference in the future of many of our youth. Please vote Yes for the 1½ mill on behalf of Kirtland Community College.

### Ingham County a battleground

**VOTERS IN INGHAM** County better batten down the hatches. This election year of 1990 promises to turn the 24th State Senate district -- which covers all but one township of the state capital's county -- into a real political battleground.

Sen. Bill Sederburg, a Republican, after three terms has announced he won't run again. That makes the 24th district fair game for both parties. It's considered a swing district; either party could win. One of Mr. Sederburg's recent predecessors had been Democrat Earl Nelson.

What's so important about a single senate district, especially for Republicans? Control of the whole senate could depend upon it.

With Democrats in firm control of the House -- so firm that even the most optimistic Republican won't promise a turnaround -- and with a popular incumbent Democrat seeking reelection as governor, Republicans must maintain their present control of the Senate to assure having any meaningful part in setting Michigan's legislative program for the next four years.

**ANOTHER REASON** why legislative advantage is so important in the next few years revolves around is congressional reapportionment. It will be up to the legislature after the 1990 census to re-draw Michigan's congressional district lines to reflect switches in population.

In addition, because of Michigan's relative population decline since the 1980 census, Michigan will lose probably two of its 18 present seats, which makes the re-designing job that much more significant.

Political reality dictates that which ever party controls the process controls the results. Unless Republicans can maintain influence, their party's voice in the congress will be adversely affected.

Legislative redistricting also will be at hand, but that's done by Michigan's ineffective special apportionment commission; the courts most likely will make the final decision.

**AT PRESENT**, Republicans control the Senate 20-18. Switch of a single seat would mean a senate tie, and the Lieutenant governor would break the tie. If Gov. Blanchard wins a new term, Democratic lieutenant governor would give control to the Democrats; if the Republican candidate -- probably Sen. John Engler -- should win, it would mean

Republican control.

The name of the game is control. As the incumbent, Gov. Blanchard must be considered to have an edge for re-election. If Mr. Blanchard does win reelection, the last chance for Republicans to have any effective influence on the legislative program for the next four years -- and on congressional districting decisions for the next 10 years -- are wrapped up in maintaining control of the senate.

The Ingham County seat is crucial to control, because incumbents have a natural advantage, and the incumbent won't be there in November. Two challengers will. It could go either way.

**OTHER OPEN** districts, both Republican, will include those being vacated by Sen. Engler, who wants to be governor, and Sen. Rudy Nichols, who wants to be a judge. Both are considered stronger chances to remain Republican than is the Sederburg district.

Some other districts considered marginal by most political standards include those held by Sen. Jerome Hart in the Saginaw area, Sen. George Hart in the Dearborn area, and Sen. Mitch Irwin's district which straddles the Straits of Mackinac. All are Democrats, and may attract heavy Republican attention.

But the most promising way for either Democrats or Republicans to gain control of the senate is to keep the seats they now have, and win the Ingham County seat, too.

That's why the empty Sederburg seat will get such heavy attention.

**IT'S COMPARABLE** to the 1986 campaign in the 20th district senate when Sen. John Schwarz of Battle Creek first won (Calhoun, Eaton Counties, plus Delhi Township in Ingham County). The 20th became open when former Sen. Harry DeMaso retired, and the smart money said the election could go either way.

With popular State Rep. Dick Fitzpatrick, a Democrat, and Battle Creek Mayor Schwarz, a Republican, going all-out, more than \$500,000 was spent in the district. Sen. Schwarz won a pretty solid victory, and Republicans received control of the Senate for their efforts.

This time out, spending could reach the million dollar mark in the Ingham County district. It's ridiculous to spend that amount of money on a single senate seat.

But that's the price of politics today.

Downright scary, isn't it?

By Nancy Lemmen

**GRAVES OF HORSES**, by Michael Delp; **THE BONFIRE OF THE VANITIES**, by Tom Wolfe; **CROSSING TO SAFETY**, by Wallace Stegner; **SUNDOG**, by Jim Harrison; **WHERE I'M CALLING FROM-NEW AND SELECTED STORIES**, by Raymond Carver; **DRUNK WITH LOVE**, by Ellen Gilchrist; and he also voted with me on Least Heat Moon's BLUE HIGHWAYS.

Then I went to GHS English instructor David Glicker, who prefers classics and nonfiction. Nevertheless, he came up with his list of favorite books published in the 80s:

**THE DISCOVERERS**, by Daniel J. Boorstin; **THE POWER OF MYTH**, by Joseph Campbell; **SHIBUMI**, by Trevanian; **ORIGINS**, by Richard Leakey; **MUSASHI**, by Eiji Yoshikawa; **IN SEARCH OF THE TROJAN WAR**, by Michael Wood; **THE EAGLE'S GIFT AND THE FIRE FROM WITHIN**, both by Carlos Castaneda; and **SMILEY'S PEOPLE**, by John LeCarre.

Finally, I asked my friends Susan and Bill Boehner to make a list of their 1980s favorites for me. The books they chose reflect Susan's career as a writer/English instructor, Bill's career as a business man, and the fact that they both travel often:

**SONGLINES**, by Bruce Chatwin; they also included Morrison's **BELOVED**; **A CONFEDERACY OF DUNCES**, by John Toole; **STONES FOR IBARRA**, by Harriet Doerr; **THE GOAL**, by Eliyahu Goldratt and Jeff Cox; **COLLECTED STORIES**, by Gabriel Garcia-Marquez; **IRONWEED**, by William Kennedy; **AMERICAN SHORT STORY MASTERPIECES**,

edited by Raymond Carver; **RIDING THE IRON ROOSTER**; **BY TRAIN THROUGH CHINA**, Paul Theroux; they voted with David Glicker on **THE POWER OF MYTH**; **THE UNBEARABLE LIGHTNESS OF BEING**, by Milan Kundera; they chose **THIS BOY'S LIFE** and **THE BONFIRE OF THE VANITIES** along with Dave; **THE HOUSE OF SPIRITS**, by Isabel Allende; and **BRIEF LESSONS IN HIGH TECHNOLOGY: UNDERSTANDING THE END OF THIS CENTURY TO CAPITALIZE ON THE NEXT**, edited by James D. Meindl.

And speaking of the next century, William F. Buckley worried last fall in the Free Press that illiteracy (and its companion innuery, illiteracy in numbers) are such grave problems that they threaten to turn the United States into a Third World country some time after the year 2000.

What can parents do to help their children become better readers? Secretary Cavazos suggests: Provide a place in the home to read and write, away from TV and other distractions; provide reading materials at home; and monitor homework to make sure it reflects understanding.

And finally: Let your children see you read. The relationship is simple: If you read frequently, your children read better. The 39 titles suggested here represent a wide and impressive range by contemporary writers. Or pick your own favorites. It doesn't matter. Just read. Your kids are depending on you. The nation, in fact, is depending on you.

## Notes from the Woods

Oh dear. The National Report Card indicates that the reading and writing skills of America's students showed little improvement in recent years and may decline in the 1990s, according to a front page article in last Wednesday's Detroit Free Press.

Says Education Secretary Lauro Cavalo: "Frankly, there has been very little education progress made in the United States. . . . Reading and writing are the basic tools of learning, the crux of the academic enterprise. Without solid literary skills, we can never expect to see improvements in math or science, history or geography."

The two report cards were based on tests administered by Educational Testing Service of Princeton, N.J., to a sampling of students (11,000 took the reading test; 18,000, the writing test) in public and private schools in 1988. The test results then become the primary source of data on U.S. academic performance, say officials of the Education Department.

Among their findings:  
\* The more students watched television, the less proficient they were in reading.

\* Only one-fifth of 17-year-olds reported they daily read newspapers, books or magazines.

\* Students did better in reading if they had newspapers, magazines, books and encyclopedias at home.

\* Students did better in reading if their parents read frequently.

I love that last finding. It means that if I had children, one of the best things I could do for them is to do one of the things I love best -- read.

Not that I needed the U.S. Department of Education to tell me that. My mother-in-law, a retired remedial reading teacher, has been

spreading that message for the 17 years I've been in the family and no doubt much longer: Her children and grandchildren, like her, are inveterate readers.

The shelves and tables of her home, as well as those of her family members, are filled with books -- hard and soft bound, fiction and non-fiction, prose and poetry, contemporary and classic, entertaining and informative, atlases, encyclopedias and dictionaries.

It was my sister-in-law who defined my first week of 1990 by loaning me DADDY, a Nazis vs. Good Guys thriller written in 1988 by Frenchman Loup Durand.

Nearly everything else in my leisure time took a back seat once I started it until I finished reading it.

Several other books, in no particular order but all published in the 1980s, ranked among my favorites of the past decade:

**BELOVED**, by Toni Morrison; **COLD SASSY TREE**, by Olive Ann Burns; **THE MOSQUITO COAST**, by Paul Theroux; **THE CLAN OF THE CAVE BEAR**, by Jean M. Auel; **WAR DAY**, by Whitley Strieber and James Kunetka; **THE ACCIDENTAL TOURIST** and **DINNER AT THE HOMESICK RESTAURANT**, both by Anne Tyler; **THE COLOR PURPLE**, by Alice Walker; **BLUE HIGHWAYS**, by William Least Heat Moon; and **THE HANDMAID'S TALE**, by Margaret Atwood.

I also asked Dave to share some of his favorite books of the 80s. He specializes in contemporary fiction and can smell a hot new novelist a mile away from a good bookstore.

**THE SPORTSWRITER**, by Richard Ford; he also liked **THE ACCIDENTAL TOURIST**, by Anne Tyler; **THIS BOY'S LIFE**, by Tobias Wolff; **OVER THE**

### Letter of Thanks

On December 31, 1989, our home on Lake Margrethe was destroyed by fire. The fire loss was noted in the newspaper and they withheld our names as we requested. Somehow, the people of Grayling found out about our loss, and we have received a continuous flow of clothing, furniture and monetary help. Heather, myself and my two sons have been overwhelmed at the outpouring of help. We can only say thanks to the people of this very special northern Michigan community.

A special thanks goes out to our friends at Georgia Pacific, (Beaver Creek) the American Red Cross, and all of the Suttles Terminals throughout the United States for their help.

Sincerely  
 The Wm. Bush Family

## Sault Ste. Marie Upsets Vikings 54-53 in Overtime

Sault St. Marie's one-point win in overtime over Grayling knocked Grayling out of a tie for first place in the Michigan Huron Shores Conference.

Sault Ste. Marie nipped Grayling 54-53 on a last second free throw in overtime. Matt Branch had tied the game at 53-53 with a minute to go in overtime with a three-pointer. Kirk Annis had sent Grayling into overtime by tipping in a basket with four seconds left in regulation time to tie the score 50-50.

"The game was characterized by periods of mental lapses," said Grayling coach Tom Mills. "We shot okay, 11 for 14 from the line and 38 percent from the field. But every time we tried to get something going we would make a mental mistake or turn

the ball over."

The Vikings led 15-8 after one quarter, trailed 28-23 at the half, and led 37-34 after three quarters.

Jim Abney led the team with 12 points and 11 rebounds. Branch scored 11 and grabbed 9 rebounds. Tony Doremire scored 11 points, Annis 10, Shane Fraser 4, Jay Mertes 3, and Scott Nicholas 2.

Last Tuesday against Roscommon the Vikings had the fourth-ranked Bucks down 13-12 after one quarter but their rivals escaped with a 50-40 victory.

"We played real aggressive defense in the first quarter," said Mills. "Then they started shooting a lot of three pointers. Fifteen of their first 23 points came from three-point shots."

In the second half, Grayling couldn't get

the ball inside to their big guys and Roscommon shut the Vikings down.

Abney again led the team with 12 points. He had 9 rebounds and 7 blocked shots. Fraser scored 11 points and had 6 assists.

Branch scored 6, Doremire 4, Jim Smith 3, Ron Doe 1, and Annis scored 3 points and had 11 rebounds to lead the team.

Grayling played Kalkaska Tuesday and will host St. Ignace Friday.

## Sports

### Soo Too Much For JV Team

Sault Ste. Marie, coming into the game with a 7-0 record, whipped the J.V.'s soundly Friday night, January 12, on their home court, 50-27.

"The Soo is one of the better teams," said J.V. coach Butch Hayes. "They played good defense and beat Grayling up and down the floor."

overcome the determined Bucks' team. Roscommon won, 72-56.

"Grayling had some nice shots," said Hayes, "but they did not go in."

Hayes said his team did not shoot well from the floor and shot only 9 for 33 from the foul line.

In addition to LaForest's 25 points, he was credited with 8 rebounds and 5 steals. Mike Kirmo followed with 12 points, 3 steals and 3 rebounds; Scott Haas scored 7 points; Chad Ormsbee had 5 points and 3 steals; Aaron Raymond 4 points and 3 rebounds; and Mark Andrus scored 3 points.

The J.V.'s played Kalkaska on Tuesday night away and will host St. Ignace on Friday, January 19, for Grayling's first home game since the New Year.

## Freshmen Beat Lake City 45-22

A defensive adjustment in the first quarter gave Grayling the edge it needed to convert Lake City's turnovers into fast break points and helped the Grayling Freshman team defeat Lake City, 45-22.

Coach Bill Klinger explained that Lake City was leading in the first quarter, 6-4, when he decided to put Jeremy Bowers into the game causing Lake City to make several turnovers which Grayling converted into points.

"We played strong defense throughout the game which kept Lake City off balance and gave Grayling an opportunity to score," he said.

Jason Neeley led his team in points scored with 12 and 5 rebounds. Jeremy Bowers followed with 9 points, Matt Gingerich scored 6 points and made 4 rebounds, Matt Craig, Jeff Pahssen had 4 points each, Steve Branch and Andy Lochner had 3 points, Mark Kraus scored 2 points and led in rebounding with 7, Mitch McMillan scored 2 points, and Scott Garner helped the ef-

fort with 4 rebounds.

Klinger said his team played a good defensive game after being off since before Christmas.

The Freshmen played at Gaylord Monday night and will be participating in a three day tournament at the Inland Lakes Schools in Indian River beginning January 22. Eight teams will be playing in the tournament, the winners to play in a game on Saturday, January 27 in Indian River.

Joe LaForest was lead scorer with 14 points and 11 rebounds. Mark Andrus and Scott Haas were next with 4 points each, Chad Ormsbee and Aaron Raymond had 4 points and 4 rebounds each, and Eric Bonamie scored 1 point.

Grayling shot 3 for 11 from the free throw line.

Joe LaForest scored 25 points against Roscommon on Tuesday night, but it was not enough to

The Vikings ran into tough pool play in the St. Ignace tournament and finished third in their pool behind St. Ignace and Inland Lakes. St. Ignace and Inland Lakes went on to win the tournament.

### I Bet You Didn't Know

Brought To You  
By Cliff Wheeler

Of all the head coaches in National Football League history, which ones won the championship of the league the most times?... 2 coaches are tied for this honor... George Halas and Curly Lambeau each won the NFL title 6 times... Next is Vince Lombardi who won the NFL title 5 times.

Here's one of the most amazing oddities in sports... A horse whose name happened to be Upset pulled off the greatest upset in horse racing history when he upset the great Man O' War on August 13, 1919... That was the only race Man O' War ever lost and he lost to Upset.

Ever wonder how much bigger football players are today compared to earlier years?... The College Football Association recently surveyed the rosters of teams in 1989 compared to those of 1949... They found in 1949 the average lineman weighed 165 pounds... Now the average lineman weighs 253 pounds—a 30% increase.

I bet you didn't know... to see Mark Sloan for great "dead of winter" deals on hot new cars and trucks. We have a great selection, and we're not too proud of any of them not to offer you a deal of a lifetime on the one that's right for you. Don't wait!

## The Bible Speaks

## Our Anniversary Issue

Eighteen years ago, my little family and I joined a small band of 80-some Baptists in a small frame church on Chestnut street. The seventies were difficult years for vocal conservatives. We were still viewed as wild-eyed radicals, ignoramuses, and in general left over vestiges of undesirable puritanical repression.

You remember the repeated public attack of our column by local liberals. My family and I felt the social pressures, the ostracism, the bitter, snide, sarcastic quips of disgust from "open minded", "loving" liberalism.

Then came the 80's and suddenly the image of conservatives began to change across the nation. No longer were all the world's

problems being

blamed upon the conservative religious and political institutions of America. All the psychological guilt problems blamed upon the repressive puritanical standards of our God soon paled as permissiveness aided and altered man's liberal utopia. Pragmatically, atheistic communism has been proven a total and universal failure. The National and World Council of Churches which had become the moral voice for international Marxism has suddenly lost money, power and influence as individual church members became enlightened that their dollars were going to support Marxist revolution in other countries. The liberals were offering a Marxist paradise to

all men.

The 90's are a golden decade of opportunity! Nations freed from political tyranny are in need of strong moral values upon which to found their futures. As Baptists, we believe the Bible is the only absolute and infallible standard which has stood the test of time, and can be offered as the only hope for the future righteousness of nations. Mission fields will soon be opened as never before. What kind of message will replace the liberal message of Marxism? We believe our Lord Jesus Christ is the answer to all individual, family, and national problems.

Many of you have been burned by prime time religion. You have been deceived by

## From Calvary Baptist Church

liberal religion. We would remind you that the local Bible believing Baptist church is still here, and still stands on the same Word of God, preaches the same Lord Jesus Christ, and points men and women to the finished work of the cross. We stand today where our forefathers stood in the 1890's, the 1790's, the 1690's and before. If you agree with us that the Bible has all the answers, will you join us in prayer for revival in our area and around the world in the 90's?

The 90's will probably be my last decade to serve my church and community. Many of you have indicated you plan to make Calvary Baptist Church your church - someday. Together we can make

a difference in each family, our community, our nation, and the world. See you in Church!

## CHURCH DIRECTORY

## THOUGHTS ARE WHAT WE ARE

We are what we think all day long. Never underestimate the power of your thoughts. They are tremendously influential in molding character and action. They are, in truth, the parents of our behavior. Disposition and personality—even character—will very largely be determined by the thoughts we welcome to our minds each day.

Since it is true that a soul is dyed the color of its thoughts, it is imperative that everyone be given guidance in thinking about truths and values that are noble and eternal.

The churches and synagogues of our community stand ready to help you and your children. Worship this week and find the joy that comes when life is centered upon values that last.

## Northrup Attends Insurance School

Linda Northrop of the Cornell Agency, Grayling, will attend a personal lines property/casualty school January 18-18 at the home office of Auto-Owners Insurance, Lansing.

The special marketing program will cover various types of personal lines insurance, including private passenger auto, executive umbrella, homeowners, dwelling fire, inland marine and recreational vehicles, and mobile homeowners.

## CONSUMER CHECKLIST

**Spending Less For Gas**  
Auto makers say high-octane gasoline doesn't increase performance of a car designed to run on a lower grade of gas. But oil companies say most cars perform better with higher octane. Use the lowest price gasoline that your car runs best on, by experimenting with different brands. Ask when the tanker bringing gas to your station usually arrives. Avoid fueling up for at least two hours after delivery to let debris and water settle in the underground tanks.

## Keeping Healthy

**Nutritional Cheese**  
Eating processed cheese can help rebuild tooth surfaces that have begun to weaken from decay, found a University of Iowa College of Dentistry study. Previously they identified 12 cheeses that help neutralize plaque acids that deplete tooth surfaces of minerals and lead to decay, and that aged cheddar cheese aids the remineralization of tooth surfaces and arrests the early development of cavities. And now it seems that about half the cheese consumed in the United States—processed cheese—has the same effects. Since the amount of cheese required is very small, cheese consumption can still be a part of a sound nutritional diet.

Ms. Latuszek indicated that previous Council may have felt that the City Office was overstaffed prior to the decision to delete the Bookkeeper, Deputy Treasurer position.

Mr. Morford explained job descriptions of the two positions being considered for raises due to increased responsibility and the cutting of one position from the City Hall Staff last March 1st.

Moved by Schreiner, supported by Latuszek the Deputy City Clerk and Secretary to the City Manager and the Utility Billing and Income Tax position each have their pay increased to an annual figure of \$17,498.00 per year retroactive to July 1, 1989 in recognition that both of them have assumed and will continue to assume duties previously performed by the Bookkeeper, Deputy Treasurer position vacated by Ms. Hanson when she became City Treasurer.

Mr. Akers asked if the people left in the City Office could handle the work load regardless of salary level. Mr. Morford replied that the remaining people would work as a team and could probably handle the work at the present time.

## Resource Review

By Bruce Patrick  
Conservation Officer

I have recently mentioned the game laws of the State of Maine and some of the similarities between them and ours. I have also found the fishing regulations to be remarkably similar and dissimilar. For example: a license is

required; there is a restriction on the number of lines which may be used (2 lines, except a person may use 5 lines under immediate supervision when ice fishing); snagging (or "fishing" as they call it) is prohibited; there are strict controls on min-

now ("baitfish") dealers; possession with certain fishing devices is unlawful; and the designation of "artificial fly only" waters (although it is unlawful to "troll a fly" on those waters).

There were a couple of their regulations which caused me to wonder about the problems which generated them. One of these is the prohibition on the use of helicopters to transport sport fishermen or sport fish to or from "Any pond under 10 acres or any beaver flowage". Another makes it unlawful to icefish from one-half hour after sunset to one-half hour before sunrise, except for cusk or burbot, and then only if the lines are checked hourly.

Maine does have a rather strict interpretation of when a fishing license is required: "Possession of any fishing tackle in the fields, forests or on the waters or ice... by a person who does not possess a proper fishing license is prima facie evidence of fishing in violation of the law".

License costs are a little higher in Maine than in Michigan with an annual fishing license costing 1/2 more and an annual non-resident license costing over twice what it is here.

## Verse or Worse

By Joe Murphy

### A Salute To The Ladies

When tales are told of pioneer days  
Of that early life of strife and danger  
Where each day was a battle to survive  
Where even starvation was not a stranger

But what about the brave ladies  
Who shared all the dangers of pioneer life  
For no man could hope to accomplish much  
Without the help of his good wife

For what was the use to settle the land  
If you couldn't populate it too  
With strong sons and daughters  
Which no man alone could do

From that hardy stock we descended  
We whose roots run deep in this land  
From women that faced their dangers day  
by day  
And rocked the cradle with a gentle hand

Listen to those stories Grandma can tell you  
Of the life she lived back in days of yore  
Of the hardships that they suffered  
When all their food didn't come from the store

Here's a salute to those brave ladies  
Who stood side by side with her man  
Facing the dangers of pioneer life  
Ever ready to lend a hand

## Doodles from the Tall Timber

By Wendell L. Hoover  
Hartwick Pines Interpreter

When four legged horse power was the common means of moving almost anything, teamsters were normally paid more than other woods workers. Teamsters were out in the barn "hovel" by four in the morning to get their teams ready for the day. A sleigh carried no light and the eastern horizon was only a dim suggestion when the first team left camp. To be chosen as the lead teamster was a privilege, he would be back in camp by sunset, but the last man out in the morning would probably not get back into camp in time for supper and more than likely the camp was asleep. Sleighs left camp at thirty minute intervals, about the time it took to build a load at the skidways.

If you knew the teams, each teamster could be recognized by the sound of the bells his team wore. On a frosty morning the peculiar squeak of the runners on the iced sled road and the sound of the bells would carry for a long distance. At the skidway the loading crew would work by the light of a "Jobbers Sun" or "Canned Daylight" in other words, the light from tins of kerosene on poles stuck in the snow.

A logging sleigh consisted of two bobsleds coupled, one behind the other, topped off with heavy timber bunks upon which the logs were piled. Such a sleigh loaded with twenty-five or thirty logs might weigh twenty tons. Depending on the sled road a typical load might be smaller, but nevertheless, it took a good team and teamster to do the job, day after

day, when the work week was six days long, from before can to when you can't see at night.

Rehearsals are now

well underway for the production of TWO BY TWO by H. T. Productions at the Grayling Holiday Inn Dinner Theatre. A search will soon begin for musicians to make up the orchestra. If you play an instrument and would like to be a member of the orchestra, please call either the Holiday Inn at 348-7611 or H. T. Productions at 348-5187 and leave your name, phone number and the instrument which you play. At the present time, the production needs a piano player to

act as rehearsal accompanist.

TWO BY TWO had its premier performance on November 10, 1970, at New York's Imperial theatre and starred Danny Kaye, Joan Copeland and Walter Willison. The production had a Broadway run of almost 400 performances which was followed by and long and successful road trip to major cities in the United States, Canada and Europe.

## Perry Selected As Accreditation Evaluator

Dr. Steven B. Perry, Vice President at Kirtland Community College, has been appointed as a Consultant-Evaluator for the Commission on Higher Education of the North Central Association of Colleges and Schools.

Consultant-Evaluators make up the visiting teams that obtain the factual information upon which an evaluation is based and prepare the initial recommendations for accreditation action for schools of higher education.

Members of the Consultant-Evaluator Corps are chosen based upon evidence that their training, experience and accomplishments qualify them to contribute judgment and expertise to the accreditation process. Institutional accreditation evaluates an entire institution and accredits it as a whole.

# THREE TIERS FOR YOU!

Introducing Old Kent's all-new Premium-Rate Investment Account," the three-tiered account that gives you three good reasons to invest:

- **High Interest** — The more you deposit, the more you'll earn.
- **Liquidity** — You can withdraw your money anytime without penalty.
- **Security** — FDIC insured up to \$100,000. It's the safest investment you can find.

**Three tiers for your money: \$25,000, \$50,000 and \$100,000.**

As you can see on the rate chart below, the more you invest, the more you'll earn. And your investment earns interest daily, compounds monthly, so you get an impressive annual yield, too.

Investment Amount	Rate	Yield*
\$25,000 - 49,999	7.35	7.60
\$50,000 - 99,999	7.60	7.87
\$100,000 or more	8.00	8.30

**Pool your resources. And keep your money liquid.**

If you have money in several different financial institutions, consolidate it into the Premium-Rate Investment Account, where it can earn more. Start with \$25,000 now, then add to it when other investments mature.

You'll have immediate access to your money, too, at all 181 Old Kent offices throughout Michigan. There's no early withdrawal penalty with the Premium-Rate Investment Account, either. You can use it just like a savings account — and you can even write up to three checks per statement cycle.

**Enjoy security.**

Along with FDIC insurance, you can also feel good about investing at Old Kent, a strong leader in the banking business for over 136 years. You just couldn't ask for a safer place to put your money.

Stop by Old Kent Bank for more details. And find out why the Premium-Rate Investment Account is worth cheering about!
